

For nearly 30 years, our 'Do year 11 and 12 differently' program has met the unique learning needs and future goals of students by providing you with a practical and independent study alternative. Whatever your life situation, you will be able to benefit from completing year 11 and 12 in the flexible, personal, and mature learning environment that we provide.

**Delivered exclusively at our Alexandra** Hills campus, once in the program you can achieve a Queensland Certificate of Education (QCE) in as little as two to three years, while keeping your options open for further study with the help of an Overall Position (OP) score.

Best of all, choosing to do year 11 and 12 differently with us gives you direct entry into the TAFE Queensland course of your choice after you graduate. TAFE Queensland offers qualifications from the certificate level right through to degrees, putting you on the fasttrack to new learning and employment opportunities. Our blend of industry connections, practical training and academic thinking will provide you with the skills and qualifications you need to adapt to an ever-changing professional environment. Whatever your goal may be, we can help you make great happen for your future.

# **DO YEAR 11 AND 12** DIFFERENTLY

Through this program, year 12 students are prepared for the Queensland Core Skills Test (QCST). Our Mentor Program supports our students throughout their time at TAFE Queensland Brisbane, enabling them to set and achieve clear and realistic goals for their future.

> PERSONALITIES. EVERYONE SHOWS THEIR REAL COLOURS AND IT'S REALLY NICE."

> > **ADAM ROSEWARNE**

# WHY STUDY **YEAR 11 & 12 AT TAFE?**

#### A PROGRAM DESIGNED WITH YOU IN MIND

Our 'Do year 11 and 12 differently' program has been designed to allow you to readily attain a selection of QCAA, QCAAregistered and/or vocational qualifications. With these qualifications in hand, you can transition through to further study or employment in your chosen field with increased ease and greater confidence.

In addition, the learning environment at TAFE Queensland Brisbane, Alexandra Hills campus enables year 11 and 12 students to develop as individuals in a friendly and supportive atmosphere, providing access to:

- industry-standard vocational training facilities
- fully equipped resource centre
- theatre and auditorium
- excellent access to computer labs
- canteen
- multi-purpose activity centre.

# A SUPPORTIVE PROGRAM

Other excellent student support services are offered at TAFE Queensland Brisbane, including:

- qualified counsellors
- career guidance via counsellors
- tutorial support
- mentor program
- career hub
- disability support officer.

# MENTOR PROGRAM

All 'Do year 11 and 12 differently' students are enrolled in the Mentor Program which is designed to prepare you, regardless of academic ability, for the challenges of studying.

The program is comprised of formal scheduled class time involving a variety of activities, discussions and guest speakers, as well as informal time where students can raise issues of importance.

Through this program, year 12 students are prepared for the Queensland Core Skills Test (QCST). Our Mentor Program supports our students throughout their time with us, enabling you to set and achieve clear and realistic goals for your future.

#### CAREER HUB

Year 12 students will also join the Career Hub in semester two of their Mentoring Program. This prepares students for the completion of year 12, and equips them with key skills required to be job-ready. Students will focus on their individual career pathways, and learn skills to meet these goals, including an exciting schedule of industry guest speakers to discuss various career choices.

#### **DISABILITY SUPPORT**

TAFE Queensland Brisbane has Disability Services Officers who:

- offer confidential, friendly advice and support for any life situation
- assist students to achieve their educational and career goals
- encourage students to be independent and take responsibility for their course of study
- liaise with relevant external agencies, organisations or government departments to gain assistance
- undertake vocational training connected to that particular work area.

# **A PROGRAM OPEN TO EVERYONE**

# **CAN ANYONE APPLY?**

Students entering the 'Do year 11 and 12 differently' program ideally should have completed year 10 or the equivalent. Each application is examined on merit. All applicants must be between 15 and 17 years of age at application and have achieved five year 10 subjects including English and Mathematics.

# HOW DO I APPLY?

Enrolment information and application forms are available via:

# **ENGLISH**

English is a two-year program that is highly recommended for students who want to gain an OP score. Most university courses require applicants to have successfully completed four semesters of Senior English. It is also a subject that employers recognise and value.

Assessment is predominantly written with some compulsory spoken tasks. Both written and spoken components must be passed in order to achieve a passing result in this subject.

# **TOPICS COVERED:**

- language use
- critical awareness
- literary appreciation
- writing skills
- spoken communication

- writing for academic purposes
- how to deliver a formal presentation
- textual analysis.

# **ENGLISH COMMUNICATION**

English Communication focuses on content and skills which will prepare you for employment. In the program, you will be expected to read, view and discuss a wide range of texts and media, including; novels, films, documentaries and songs.

# **TOPICS COVERED:**

- youth issues
- this sporting life
- small business
- anthology

- narrative structure of contemporary media
- how to craft creative fiction and non-fiction textual analysis
- the core elements of basic business communication.

# **MATHEMATICS A**

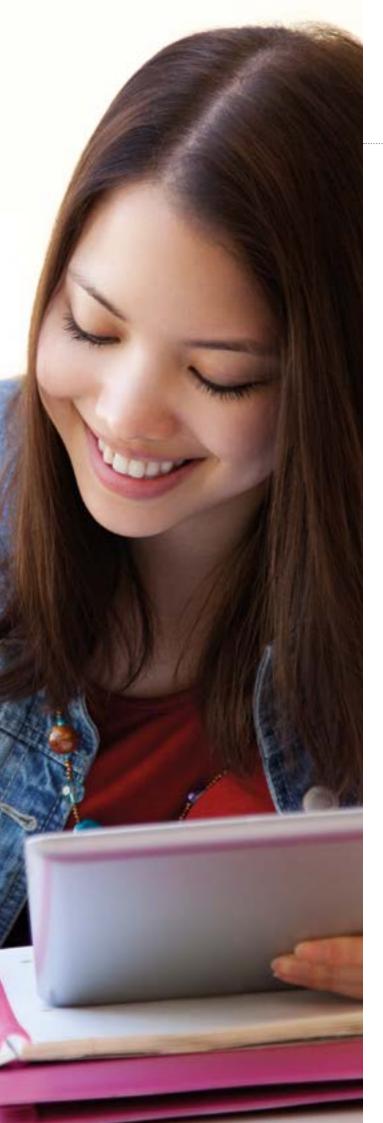

Mathematics A is a QCAA subject that can contribute to gaining of an Overall Position used for university entrance as well as real world usage. As such, Mathematics A will equip you with the skills to manage the mathematics you will encounter in everyday life as well as non-science university courses.

# **TOPICS COVERED:**

- financial mathematics
- applied geometry
- data exploration and analysis
- operations research

- the knowledge and skills of computation, estimation and measurement
- how to interpret and analyse information presented in a variety of forms
- the ability to make judgments based upon evidence and reasoning
- how to justify and communicate results in a variety of forms.

# PRE-VOCATIONAL MATHEMATICS

Pre-Vocational Mathematics provides a broad base of practical mathematics if you are planning a vocational outcome. The course is organised under various themes with a focus on numeracy and basic mathematical skills that are encountered in day-to-day living with practical applications relating to vocational areas.

# **TOPICS COVERED:**

- reading maps, tables and graphs
- earning, spending, borrowing and investing money
- taxation and GST
- renting, buying and renovating property
- business planning

- calculations used for basic financial management
- skills needed to interpret data displayed graphically
- knowledge required to plan for and establish a small business enterprise.

# **BIOLOGICAL SCIENCE**

By studying Biology you will gain an understanding of the complex and diverse world of organisms and the natural systems that affect them. You will get the chance to undertake experiments that investigate problems pertaining to the living worlds including plant and animal physiology, genetics and ecology.

# **TOPICS COVERED:**

- cellular biology
- animal and plant physiology
- genetics and diversity
- ecological studies
- contemporary global issues in science

- developments in biology and their impact on modern society
- the link between biology, technology and economic development
- basic anatomy and physiology of plants, animals and microbes.

# **SCIENCE IN PRACTICE**

The program of study is based on a thematic, life-related approach to the study of science and draws from the disciplines of biology, chemistry, earth sciences and physics. Science in Practice uses a contextualised approach, where units deliver the core through electives.

# **TOPICS COVERED:**

- science for the workplace
- resources, energy and sustainability
- health and lifestyle
- environments
- discovery and change

- scientific literacy and working scientifically
- workplace health and safety
- effective communication and self-management skills.

# STUDY OF SOCIETY

Through a combination of Psychology, Sociology, Anthropology, Politics and Law, Study of Society you will develop an awareness of yourself as an individual and how you interact with the culture around you. The aim of this course is to increase the ability and willingness of society's citizens to participate constructively and ethically in their public and private lives.

# **TOPICS COVERED:**

- how individuals are shaped
- social behaviour
- power and equity
- media research and how it can influence culture

- envisaging a better future
- what societies can achieve and what they struggle to achieve
- how barriers to beneficial change can be overcome
- how change happens and how to deal with and initiate it.

# **MODERN HISTORY**

Modern History is a two-year program that is highly recommended if you want to gain an OP score, and if you like the idea of engaging in 'hands on' experiences as historians, examining archival materials and collaborative projects conducting oral history interviews in the local Moreton Bay and Redlands area.

# **TOPICS COVERED:**

- the role of gender, race and culture in social conflict and social change
- the emergence of alternative, folk and youth subcultures
- factors that lead to mobilisations and revolutions
- global indigenous movements and climate change

- using research processes
- critical examination of sources (written, photographic, digitised archives, popular culture and the arts)
- the variety of perspectives that flow from diverse standpoints.

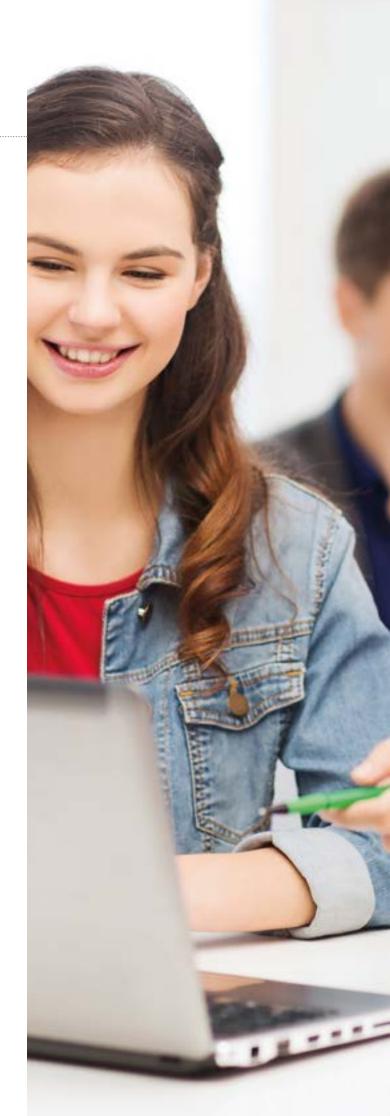

# **LEGAL STUDIES**

Law affects every member of a society. Individual members of society need to be better informed of their legal position, rights and responsibilities. If you study this course, you will gain an understanding of the legal implications of daily life, as well as your rights and obligations.

# **TOPICS COVERED:**

- civil obligations: agreements and torts
- renting and buying property
- family
- the legal system
- crime and society

- basic historical and social issues
- the law to know their rights as private citizens and when to seek legal advice
- how to contribute as informed members of society to critical discussion and debate about law.

# **BUSINESS STUDIES**

Once enrolled in Business Studies, you will be involved in a range of contemporary real world activities. Business learning involves a range of experiences that provide knowledge, processes and skills that can be applied to business in the real-world. You will gain an understanding of business environments and have the opportunity to engage in practical business projects.

# **TOPICS COVERED:**

- events and sports management
- marketing
- retail and real estate
- financial services

- the technologies utilised in day to day business operations
- how teamwork facilitates innovation and success in business
- communication strategies that can be used to sell ideas and build partnerships.

# **INFORMATION AND COMMUNICATION TECHNOLOGY**

Information and Communication Technology (ICT) is a practical course designed to train you to apply knowledge of ICT to produce solutions to simulated problems. Through practice in problem solving in a variety of contexts, both individually and collaboratively, it creates adaptable, competent and self-motivated users and consumers of ICT who can work with clients and colleagues to identify issues and solve problems.

#### **TOPICS COVERED:**

- digital imaging and modelling
- document production
- online communication and application development
- technology
- webpage production

- current and emerging hardware and software combinations
- social, environmental and legal impacts of your actions
- skills needed to solve technical issues
- rapidly changing ICT practices and protocols.

# **VISUAL ARTS IN PRACTICE**

Visual Arts in Practice encompasses art forms that communicate and express meaning through visual perception. This program gives you the opportunity to apply your knowledge and understanding of visual arts practices, visual mediums, art-making technologies and techniques to communicate meaning through visual forms.

# **TOPICS COVERED:**

- 2D media processes drawing, painting and print making
- digital media processes
- 3D media processes ceramics and sculpture

- how to seek creative solutions to design problems
- how to apply critical thinking to meet deadlines
- how to demonstrate creative and technical skills
- relevant workplace health and safety practices.

# **DRAMA IN PRACTICE**

This is an exciting program if you are interested in the performing arts industry. It offers you hands-on experience in various styles of acting, through involvement in various plays, monologues, auditions, performances and events throughout the year.

This program is not just for ambitious actors but also for those of you who want to be involved in all areas of performing arts, film, entertainment and music.

#### **TOPICS COVERED:**

- arts management
- performance principles
- improvisation
- career development

- how to confidently perform on stage for an audience
- the business, marketing and administration that goes into funding and planning performances
- the intricacies of establishing a career in the performing arts.

# **MUSIC IN PRACTICE**

In this subject you will develop skills in all areas of music including: Performance, Management, Technology and Creation. This is a hands-on practical subject where you have the opportunity to regularly rehearse, set-up, perform and market.

#### **TOPICS COVERED:**

- music theory and production
- music composition
- recording processes
- marketing in the music industry

- developing and refining self-created musical pieces
- technologies involved in the recording and mastering of musical work
- business and marketing practices utilised in funding and promoting music.

# **HEALTH EDUCATION**

The focus of Health Education is the understanding of health in the context of society, and the mechanisms necessary to develop and promote health for individuals, groups, communities and nations. Health Education offers you the opportunity to develop the knowledge, attitudes, values and skills needed to help you reach your health potential and to participate effectively in the promotion of equitable health outcomes.

#### **TOPICS COVERED:**

- the ecological interaction between human health and the sociocultural, physical, political and economic environment
- the need for health to be considered at the global, national, local and personal levels
- individual and collective participation in the maintenance and promotion of their own health

- the health realities of living in contemporary Australia
- increasing community capacity and individual empowerment.
- how to develop and promote essential health initiatives.

# **AQUATIC PRACTICES**

Aquatic Practices is a practical course designed to develop knowledge, skills and attitudes associated with the safe and responsible use of the marine environment. When you complete this course will you will be equiped to participate more safely in a variety of marine pastimes.

The delivery methods used in the Aquatic Practices program involves as much as possible practical application of knowledge and skills using Moreton Bay and its facilities as the focus of learning and practice.

Successful completion of the specific units will result in the issue of a Recreational Shipmasters Licence (Boat).

# **TOPICS COVERED:**

- recreational shipmasters licence
- weather, tides and currents
- personal water safety and safe working practices
- recreational fishing and snorkelling
- boat handling and navigations

- essential skills for safety on the water across a variety of vessels
- professional practice in commercial maritime setting
- local maritime laws and regulations.

	DRAMA IN PRATICE
	MUSIC IN PRACTICE
	HEALTH AND EDUCATION
	AQUATIC PRACTICES
	VOCATIONAL CERTIFICATE (refer to pages 26-29):
	PREQUIRED SUBJECTS
	Notes:

# NEED **TO KNOW**

#### **QCAA**

The Queensland Curriculum and Assessment Authority (QCAA) is a statutory body of the Queensland Government which provides Kindergarten to Year 12 syllabuses, guidelines, assessment, reporting, testing and certification services for Queensland schools.

# **OVERALL POSITION** (OP) SCORE

An OP is a number between 1 and 25 calculated by the QCAA on completion of Year 12 for students who complete at least 20 semester units of QCAA subjects and sit for the Queensland Core Skills Test. Students must also carry three subjects over the two years.

The OP decides tertiary entrance either to university or TAFE Diploma programs. The highest possible score is OP 1. With this score you can enter into courses offered by TAFE Queensland Brisbane or any major university.

# QUEENSLAND CERTIFICATE OF **EDUCATION (QCE)**

The QCE is Queensland's senior school qualification which is awarded to eligible students usually at the end of Year 12.

The QCE is a broad-based school qualification awarded to young people who have achieved a significant amount of learning at a set standard and have met certain literacy and numeracy requirements.

The QCE is a student's passport to move confidently from school to work, training and further education. It is awarded to students who achieve 20 credits in the required pattern at the required standard as well as meet the literacy and numeracy requirements.

#### SCHOOL-BASED APPRENTICESHIP OR TRAINEESHIP

A School-based Apprenticeship or Traineeship (SAT) is a governmentfunded system where students are able to commence a nationally-recognised training program as an employee while completing their QCE. A training agreement is individually designed in consultation with the student, the employer, the Vocational Trainer, an Australian Apprenticeship Centre and the school.

TAFE Queensland Brisbane is ideally positioned to offer the SAT programs as we have a fully-integrated QCAA QCE and/or Vocational Pathways program.

A student taking on a SAT program will:

- study three to five QCAA subjects and undertake the Mentor Program
- work part-time
- undertake vocational training connected to that particular work area.
- SAT students may find they would prefer to complete their Senior Studies over three years.

#### **AUTHORITY SUBJECTS/ AUTHORITY-REGISTERED SUBJECTS**

As you may have noticed, between the OP and non OP pathways, there is mention of QCAA authority subjects and authority registered subjects. These are the subjects undertaken by most students in Years 11 and 12.

As per the QCAA, each subject exited after 4 semesters at a Sound level of achievement or higher contributes 4 credits towards a QCE. When a student exits a subject with a Sound level of achievement or higher after completing only 1, 2, or 3 semesters, credit earned corresponds to the number of semesters completed.

For more information on QCAA standards, points and subjects, feel free to visit:
