

AUSTRALIA'S FINEST APPRENTICES ARE EDUCATED AT THE AITC

**AUSTRALIAN INDUSTRY
TRADE COLLEGE**

The Future of Industry Begins Here

The AITC is a private independent school that prepares Year 11 and 12 students for a career in Industry. The College aims to create the highest standard of apprentice and trainee for Industry through a rigorous program of recruitment, senior education, training and industry experience. The AITC was established in response to the need for quality-educated tradesmen to meet the needs of industry across Australia.

The aim of the College is to attract and retain aspiring young people through:

- Selecting the best recruit – through partnerships with like-minded schools
- Educating recruits to a senior (QCE) standard – in a trade-based curriculum
- Skilling young people to high industry standards – through partnerships with leading industry training organisations
- Employing recruits through an industry leadership network – through partnerships with quality employers and industry bodies

The AITC takes young people on a two year journey that is currently unique in Australian schooling.

As a truly integrated schooling model, the AITC is effectively partnered with both small and large businesses in industry.

“No-one knows industry like the AITC”

90% of AITC students graduate with a full time apprenticeship
