our shared history

preserving culture, heritage and values-based community

As a blend of two very successful, respected rural schools in Bathurst, Scots All Saints College builds on a strong foundation as experienced educators in regional NSW. Scots All Saints College has a longstanding culture and heritage which is preserved through its passionate Alumni, historic buildings, archives and memorabilia.

Christian values underpin the foundation of the College. The whole school community gathers to worship at a number of Chapel services throughout the school year including four Parent Weekends to further promote a strong sense of community. The pastoral team led by the Headmaster, includes the Heads of Campus, Directors of School, Heads of Boarding Houses, Stage Co-ordinators and the College Chaplain.

Students are connected and supported by caring teachers and a passionate community network of lifelong friendships. Co-curricular activities such as the Performance Band, Pipe Band, Highland Dancing, Equestrian and Cattle Team celebrate and preserve the College's traditions for future generations.

the pursuit of excellence

strong pastoral care and student wellbeing focus

Scots All Saints College focuses on the achievement of academic excellence by providing a greater variety and choice of subject offerings, new electives and flexibility in timetable structures to support student preferences.

Academic development is tracked closely from the early years in order to harness resources, provide learning support and to extend and enrich the learning opportunities for all students. Above all, every student is recognised as an individual and is provided with an opportunity to build confidence and resilience, to enjoy school, to be challenged and to develop skills and foster personal growth as they journey through the College.

For a student to achieve to their full potential, outstanding pastoral care and a strong sense of community is vital. This is a key priority for our experienced staff who care for their students as individuals. We are fortunate to have a very strong community where the school and parents work collaboratively. Positive Psychology has been introduced in the context of a Christian world view. A very active Parents' & Friends' Association, with its many subgroups also creates a rich, connected community for the benefit of the students.

*"It is through the diverse range of opportunities and strong community spirit, that individual students are supported and motivated to be the best they can be socially, physically, emotionally, spiritually and academically."
Chaplain, Mr Samuel Gittins*
