# FOUR SCHOOLS IN ONE

Swan Valley Anglican Community School is organised into four distinct sub-schools:

- Early Childhood Learning Centre (K – Year 2)
- Junior School (Year 3 – Year 6)
- Middle School (Year 7 – Year 9)
- Senior School (Year 10 – Year 12)

This structure has been implemented in order that all children receive the specific academic and pastoral care that is appropriate to their individual phase of development. Associate Principals are in charge of each of the four sub-schools.

The K-12 campus also provides a wonderful opportunity for older students to work with and support younger students in their development. This aspect of peer support provides supportive role modelling to younger students whilst aiding the development of leadership, interpersonal and communication skills in our older students.

## Our Core Purpose:

By building and enhancing relationships we nurture each student to enable them to develop their potential within a safe, caring and inclusive community.

# A DYNAMIC AND THRIVING COMMUNITY

The most exciting aspect of our development has been establishing values and traditions that will serve this community for decades to come.

Key steps in our journey over the next four years will be to:

- Further develop our reputation as a distinctly Anglican school with a strong academic focus.
- Maintain our high standards.
- Build on our opportunities to grow and develop in a dynamic way and be recognised as a leading educational institution.
- Strengthen our firm foundation of Christian values to model faith in life, be open to others, and encourage our students' involvement in service learning.
- Develop teaching and learning practices that provide opportunities for all students to achieve their potential.
- Create a co-curricular culture that enriches students' learning experiences.
- Be recognised for excellence in pastoral care where every student feels valued and has a strong sense of belonging.
- Foster relationships with ASC schools and beyond to create opportunities for our students.
- Develop the School's buildings, grounds and facilities to support our educational outcomes.
